

Dear Danny,

April 27, 2009

Words cannot express the immense gratitude that we feel towards Comtec, not just for the extremely professional way in which everything was handled, but also for your patience and willingness to go the extra mile despite the obstacles and limits to our budget.

It is the first time ever that we have worked with a company where every aspect was handled quietly and efficiently and there was no need to intervene. Even the Tel Aviv marathon did not disturb the proceedings!

Not only we, but also the over 300 participants at the conference, were overwhelmed by your welcoming team as well as the luxurious atmosphere and beautiful design.

All your team were wonderful but we particularly want to point out three people who were exceptional throughout – Kfir, whose infinite gift for patience is incredible, Nitzan, who is extraordinary and creative, and, of course, Lauren, who is a breathe of fresh air, dedicated, hard working, caring and very proficient.

We thank you from the bottom of our hearts and please know that we will always regard you and the Comtec team as our dear friends.

Warmest Wishes

Tzaki Siev–Ner
